

# DAWN OF RECKONING

# 1. DAWN OF RECKONING

## 2. THE RISE

*- Rise - Soldiers*

A tsunami of angry and bitter souls is rising upon you,  
you feeble fools.

**Can You hear it?**

**Can You feel it?**

This is a hungry starving army that has a taste for you:  
rancid foods, soured meats.

**Can you hear it?**

**Can you feel it?**

*I do, hear your death.*

**Manslaughter - Massacre - Purgatory**

**Lustration - Ablution - Dissolution**

*- Rise - Soldiers*

Your end will be their dawn, an offering of deaths for  
lives.

It ain't war.

It's the inception of hope, the vengeance of innocents.

Those you feed from, those you bleed from, those you  
abused from.

The balance must be restored from this soiled  
earth...from this tormented era.

Predictions, advises, admonitions. You had enough  
indications.

Your denial is your obsolescence.

Now, it's your turn to be threatened and face extinction.

**Can you hear it?**

**Can you feel it?**

*It's coming to you!*

**Manslaughter - Massacre - Purgatory**

**Lustration - Ablution - Dissolution**

### 3. WARCRY

War! Warcry!

Launch the assault, grab your weapons, NOW!

Sharpen your blade, prepare your axes NOW!

It is a Warcry!

Army of death, tear down their realm

Be proud of the corpses falling under your  
determined steps

Ignore their burden as you pierce... pierce their  
flesh!

Long Live to Hel! To Hel!

Warcry!

Tearing, Shredding, Slaying

Wipe out humanity from this earth, NOW!

Feed despair with the blood of men, NOW!

It is a Warcry!

Army of death, tear down their realm

Show knives and lances, crash battleaxes upon  
helms

Ignore their burden as they reach...reach their end!

# 4. THE FATE

A chance has been given to rebuild: a rebirth

As the lily of the valley, is a lucky charm, the spring of life

A Goddess offers to resurrect, to be reborn,

As the earliest flower finds its way through iced earth

Rise, learn, restore, grow

The submissive who kneel may now arise and stand.

Give back what you borrowed, give back what you rented

Take your tools, fix your glitch

Don't act fool

Do not twitch

A second chance will not be granted

Rise, learn, restore, grow

Your punishment was your annihilation

Now this assignment is your salvation

Rise, learn, restore, grow

# 5. THE FALL

Die now, tormented souls

Crawl, drag, creep, tremble

Flee, run, fear, panic

Doom's day is upon you

*The kiss of death lusts my mind*

*I am not brave anymore*

*As life crosses away from my heart*

*Dread embraces my senses*

*I leave this world with such regrets*

*My soul decays as I gaze the void*

Feel my touch corrode your bones

Die! You shall comply!

Feel my kiss absorb your soul

Die! You shall comply!

Do not pray it's futile

Accept your sins.

It's too late

*The kiss of death lusts my mind*

*I am not brave anymore*

*As life crosses away from my heart*

*Dread embraces my senses*

*I leave this world with such regrets*

*My soul decays as I gaze the void*

I don't...

I don't doubt myself as you rest.

I don't.... I don't....

Feel my touch corrode your bones

Die! You shall comply!

Feel my kiss absorb your soul

Die! You shall comply!

Die now, tormented souls

Crawl, drag, creep, tremble

Flee, run, fear, panic

# 6. EQUILIBRIUM

Observe ce vaste firmament

Ne perçois-tu pas cet abîme opprimant?

Les étendards noircis par le feu annoncent ta destination, ton trépas

Retourne-toi et regarde tes pas

Ne perçois-tu pas le burlesque de ta foi?

Cette foulée à la démarche incohérente prédisait ta fin manifeste, ta voie.

Apprend pour la cause que tes vices éclosent des amas galeux par suite d'un passé scandaleux

**Damné** par des choix individuels dans un présent résiduel qui ne pardonne pas

**Damné** par un abandon mutuel d'événements conflictuels qui ne s'oublie pas

**Damné** par vos lapsus irrémédiables

Univers, berceau de lueurs glacées innommées

Déflagration d'atomes fragmentées

Harmonies et chaos sous une même nomenclature

Tu es le pilier, le pivot, le vide et la plénitude

Conjointement Infime et colossal

Tes battements hésitent, oscillent, vacillent et s'agitent au cœur du néant

Occulte évidence, poussière moléculaire, ion interstellaire

Je suis, tu es, nous sommes

Futile et essentiel

**L'immuable**

Frêle petitesse se suppose saillant

Poussière de vie, banal, insignifiant

Dès lors tu n'es qu'un souvenir lointain

Un stigmate à travers d'innombrables chemins

*Father, mother*

*Brothers, Sisters*

*This life rests in lies...*

*A deceit, a mere fantasy*

*No mercy awaits*

*My will, my hopes are frail...lost*

Tombeau des astres, Univers; fatalité justicière

Omniscience et ignorance gravitent au centre de tes orbites.

Tu es l'antagoniste harmonieux. Les rivaux, triviaux, odieux.

Cruauté et clémence. Tu traces, impitoyablement, la balance.

**Le jugement**

# 7. THE FALLEN KINGS

This is a fairy tale of what once was, before it failed

Once upon a time, humanity, kings of all things

Plowed the earth, seized its wealth

Reached its core, swallowed its fruits...

They killed, raped, infected, wasted

To feed their ambition... fame... goal...reign...

**Greed! Greed! Greed!**

Crushing the weak on their way

Trampling the corpses as they climbed

They liked to think that they were just and moral, but the forbidden way is all but honorable

Doomed....They were doomed

This is a fairy tale of what once was, as it failed

Cursed by their persistence of executing for their mere existence...

# 8. A NEW ERA

It is the inauguration of this modern birth...  
the latest opportunity

Back to the origin...

Sense the air of change coming your way  
So fresh and pure: the good old days !

Aroma of renewal emanates...

Smell it through the atmosphere

It awakens as it bursts out their gates

Feel it through their fear

The virgin's lawn

Eden respawns

Born from ashes

Ashes to dawn

*Restore to stay*

*Slay to restore*

I tried to forgive them! I tried to  
change them!

Egoistic parasite of a biased  
individualistic well-being

I tried to forgive them! I tried to  
change them!

It's the beginning of a new era,  
the inauguration of a creation

*Restore to stay*

*Slay to restore*

You dwelled in lies wandering like the  
specter of life's decimation

Enough of this poisonous breath!

Enough of your pollution!

*Restore to stay*

*Slay to restore*

A new era

## 9. LE PERIPIE

Après neuf mois de voyage, de pensées et de mirages  
Délivrée, éblouie d'éclats de vie, je pousse un cri!  
Je tends les mains, je me tords,  
Du genre humain, de tout, j'ignore  
J'arpente cette terre éphémère  
Inconsciente de sa misère

*Vie téméraire*

*Tu creuses ta pierre*

*Obnubilée par tes êtres viciés*

Trébuchante, j'avance et j'observe avec avidité  
Naïve, je crois assimiler les vérités  
Quand les jours et les nuits se garnissent d'espoir injustifiés  
Nourrissant mes chimères d'aspirations faussées

Then there's a sign, the veil is lifted, and behind  
The truth, the terror, what's left of us,  
mere creatures...  
No more trust

La lucidité me frappe, m'arrache et me rattache  
Vague marée de vérités me lacérant à chaque phrasé  
Théorie futile d'une humanité vertueuse  
Il faut, je dois, m'extirper de cette vie trompeuse

*Vie téméraire, Tu creuses ta pierre*

*Obnubilée par tes êtres viciés*

*Vie téméraire, Tu creuses ta pierre*

*Obnubilée par tes êtres viciés*

# 10. REUS ES

The beast has awakened  
Crawling and dragging  
Seeking to feed itself  
on the poor guilty souls

Behemoth, slave of her  
Avenges those who can't speak  
Gnawing to the marrow  
All that is rotten

*Adieu*

*J'ai souillé ce monde, agissant sous le chaume des hypocrites  
Étrangère aux souffrances, baignée par cette volupté absurde  
Artifices aliénés aux dépends des faibles  
Je rampe sous le poids de l'abjection coupable*

*Au revoir*

*Que mon sang abreuve l'absolution  
Il ne sied de prononcer nul pardon  
Je m'éteins dans un monde abîmé  
Fautive d'une humanité crasseuse.  
Je suis bercée par cette volupté nauséuse*

*Adieu*

*Étreinte carnassière  
Crève mes plaies condamnables*

Die now

Necrosis; pestilential being  
Putrid narcissist vermin
